

Come and sit with us **around the fire**,
with a hot cuppa and let stories unfold their magic.

Stories have been told **since times immemorial...**
for reasons deeper than mere entertainment.

In ancient times, a **shaman** may have returned
from a journeys into non-ordinary realities,
to tell about the experience to the tribe...

In modern times, we can go deep into archetypal psychology,
in the tradition of C G Jung and discover
the **blueprints stories hold for life** itself.

Please, come and join us if you enjoy cosy nights, meaningful conversations,
and exploring the mysteries of our existence.
